QuickBooks Subscription has Lapsed/Expired

To fix a lapsed QuickBooks subscription, you should first update your payment information in the Intuit account or Customer Account Management Portal (CAMPs), and then try to reactivate or sync your license data within QuickBooks. If the problem persists, clear your browser cache, try reinstalling, or contact QuickBooks Support for assistance.

QuickBooks Login Issue

To fix a QuickBooks login issue, first try clearing your browser's cache and cookies, or use a different browser or an incognito window. If that doesn't work, check for QuickBooks server outages, restart your computer and network equipment, and ensure your antivirus isn't blocking access. You may also need to reset your password if you've forgotten it.

QuickBooks Won't Open

If QuickBooks won't open, try running the Quick Fix my Program tool from the QuickBooks Tool Hub, which can resolve issues caused by a corrupt installation or damaged files. Other solutions include restarting your computer, running QuickBooks as an administrator, using the QuickBooks Install Diagnostic Tool, or trying to open the application while holding the Ctrl key.
